- German   Beginner

OBJECTIVE

An undergraduate sophomore student studying computer engineering, looking for a summer internship to learn cutting-edge technologies, to gain new experiences in the field, and to enhance my coding skills and technical background.

EDUCATION

SOPHOMORE STUDENT AT KOÇ UNIVERSITY, ISTANBUL / TURKEY

Computer Engineering | 2019 - Present
Relevant Coursework: Discrete Mathematics, Introduction to Programming, Advanced Programming, Computer Systems and Programming, Data Structures and Algorithms, Signals and Systems | GPA 3.39

EXPERIENCE

SECTION LEADER

Koç University | 02/ 2021 – Present

- Section leader for Advanced Programming course.
- Assisted students and answered their questions in weekly lab hours.
- Graded student's lab assignments.

MEMBER OF KOÇ UNIVERSITY ACM CLUB

Corporate Relations Team | 10/ 2020 – Present

- Assisted in organizing and cooperating Hackathons in the Team. Helped in arranging and directing workshops and mock interviews with various companies.

RECENT PROJECTS

Burger Builder Website - React.js
- Building a burger based on the ingredients that clients choose, rendering the burger on the screen as the ingredients are added, showing the cost of each ingredient, and calculating the total cost of the customized burger.

Portfolio Website
- I created my own serverless backend portfolio website developed using React.js, Next.js, Node.js, Axios and designed using Sass and Ant Design.
